PROFILE

I am a full-stack software engineer, focused majorly on building highly scalable and 99.9% secured software with C#/.NET, Angular, and Cloud Services like AWS, railway, and render.

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer, *Tenece Professional Services* — present, Enugu, Nigeria

- Increased the efficiency of our partner's businesses by developing dotnet and angular apps, resulting in a 60% operational increase.
- My team collaborated closely with company partners to gather requirements, ensuring software solutions met specific needs and were delivered on schedule.
- We have engineered a range of RESTful APIs using .NET Core, streamlining data exchange between front-end and back-end systems.
- We maintained and updated legacy systems, ensuring continuous compatibility and minimizing system downtime.
- We also conducted comprehensive unit/integration testing using Xunit for .NET and Jasmine for angular ensuring software reliability and functionality.

Full-stack Software Engineer, *WICRYPT* — 05/2023 – 08/2023, Enugu, Nigeria

- Advanced in knowledge by participating in building and deploying dotnet and blazor applications with the senior engineers
- Developed secure software systems using C#, ASP.NET, and Blazor.
- Improved system efficiency and user experience with robust applications.
- Worked closely with my team to Manage and optimize systems on AWS for best performance and security.
- Increased user engagement through interactive web UIs with Blazor.
- Collaborated in agile projects for timely delivery of project goals.
- Adapted to emerging technologies and industry trends.

Front-end Developer, *DAST* — 01/2023 – 07/2023, Enugu, Nigeria

- Developed and maintained robust, scalable user interfaces utilizing Angular.
- Created maintainable, well-structured code following Angular best practices.
- Collaborated with cross-functional teams to implement seamless UX/UI.
- Managed end-to-end Angular application development, from design to implementation.
- Applied thorough testing methods, ensuring high-quality Angular deliverables.
- Kept up-to-date with Angular updates and industry trends, continuously improving web architecture.

Software Engineer Intern, *Genesys Tech Hub* — 11/2022 – 05/2023, Enugu, Nigeria

- Received comprehensive training in software development with a focus on .NET and Angular technologies.
- Practiced Agile methodologies throughout the software development training life cycle, enhancing my efficiency and productivity.
- Gained hands-on experience in building, testing, and debugging applications.
- Collaborated with experienced software engineers and developers, gaining invaluable insights into professional software development.
- Participated in regular stand-ups, planning meetings, and retrospectives, further understanding the Agile development process.
- Applied learned concepts and principles in real-world projects, effectively translating academic knowledge into practical skills.

SKILLS

C#/.NET Core | Asp.net Core| Blazor
AWS | Railway | Render | DevOps | Testing | Microservice

Angular
Angular Material | Testing

Nestjs

NextJs

SSMS | MySql

Redis | MongoDb

LANGUAGES

- English
- Igbo

CERTIFICATES

Certified C#/.NET and Angular
Full-Stack Backend Engineer | Genesys Tech Hub

Certified Fronted-end Dev Enugu Tech hub
Html | Css/B3/Tailwind | Js | NextJs
